window styling

Roman Shades

Decorate your windows with a tailored, textured look

0510 Ballina Front, Top Down/Bottom Up

Combine *to your heart's content* with Luxaflex® Roman Shades

With an extensive collection of exclusive fabrics and eight different models of Luxaflex® Roman Shades you can combine to your heart's content. You can also choose from numerous Finishing Options in order to give a personal touch to your Roman Shade. A flounce is standard for all models to protect against the effect of UV-radiation on the fabric.

Models *in style*

The Roman Shades collection comes in no less than eight models - ranging from a streamlined to a romantic look.

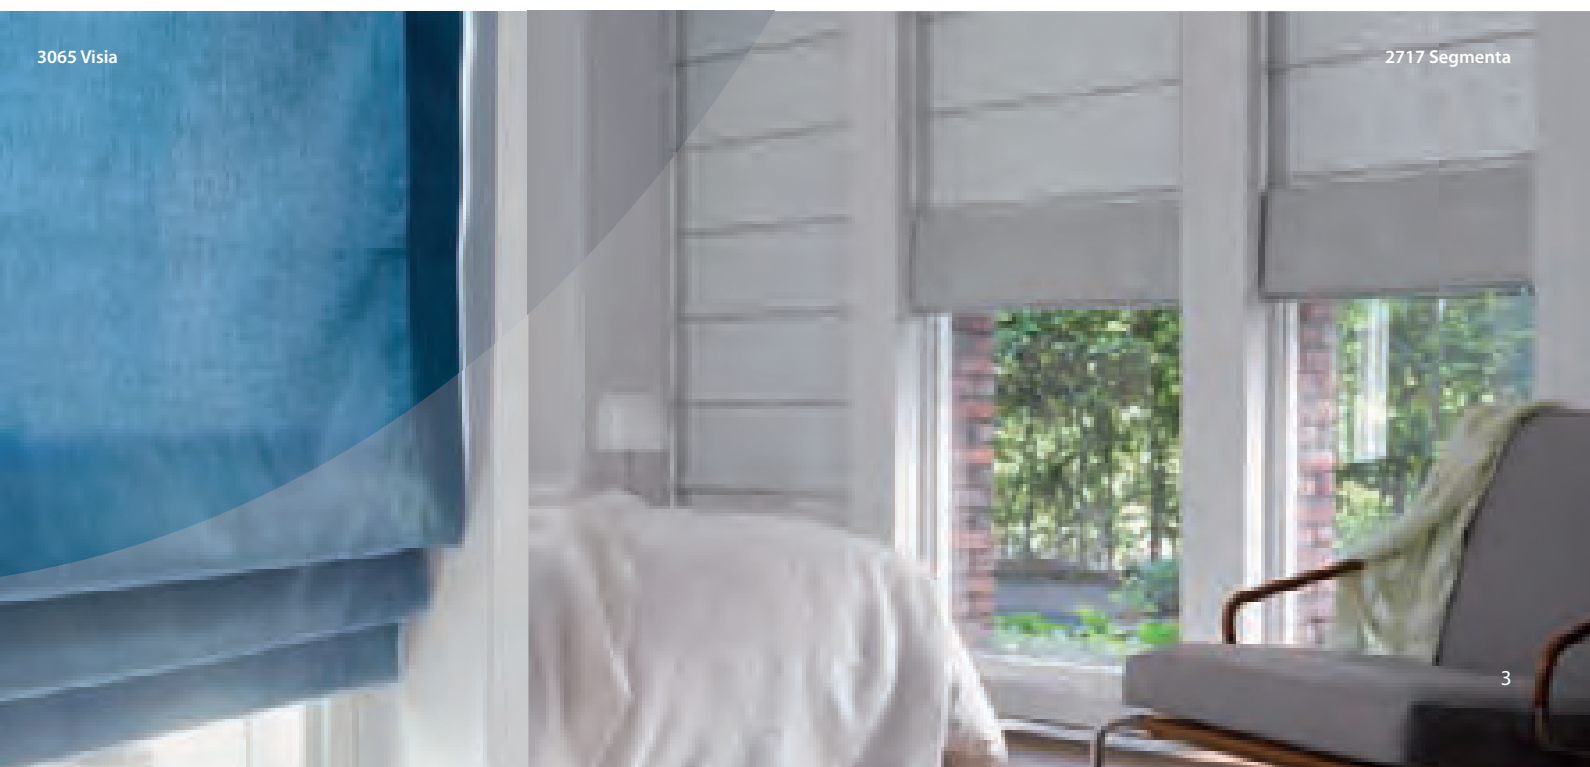

Rods give your Roman Shades a streamlined and modern appearance. Ballina Front has rods on the side facing the room, so that there is no break in the pattern of the material. Ballina Back has round rods on the side facing the window. The Linea model incorporates wide flat rods made of aluminium. In the Segmenta model the rods are pulled up and over so that the raised shade is thinner. This is ideal for bay windows and high windows.

For a Romantic look there are models without rods. Visia has an invisible raising mechanism and Bandino has a raising band which is stitched to the side facing the window.

Then there are also two Top Down/Bottom Up variants. With these models you can operate the top and the bottom independently of each other. This allows you to adjust the extent to which people can look in as well as how much light to let in. It can be operated with a cord or a hand grip and if necessary a long rod.

In the (deluxe) Lining model the Roman Shades are lined at the back. This is available in Bandino, Linea, Segmenta and Top Down/Bottom Up and is guaranteed to give a feel of luxury.

Visit our informative website www.luxaflex.co.uk for further information. There you can also find your nearest Luxaflex® dealer who will provide professional advice and has extensive information about all the possibilities.

3065 Visia

2717 Segmenta

4825 / Cord piping 4825

4831 / Contrasting piping 4835

Finishing *Options*

Countless options for decorative finishing will give your Roman Shade an exclusive and individual character. Why not finish the rod sleeves with cord piping in a contrasting or in a perfectly matching colour.

2748 / Rings 0549

Rings can be applied to the flounce in unlined ballina and linea models. As an extra decoration a tape can be woven through the rings. Another variant is a border around the edge of a Roman Shade in the same quality of material but, for example, in a contrasting colour. A flounce can also be adapted in this way according to your wishes. In order to emphasise the horizontal display of lines in a Ballina Back. Why not add cord piping in either a matching or contrasting colour? The possibilities are endless. Your Luxaflex® dealer would be delighted to assist you in selecting the most beautiful combinations.

Fabrics galore

There are more than 200 fabrics in the Luxaflex® Roman Shades collection. The range of choice is unprecedented, especially when combined with the Finishing Options. Finishing is perfect to the finest detail.

Naturals

Subtle fabrics with a structure, inspired by nature. The colours in various earthy hues give an attractive and warm appearance which is ideal for many interiors. The texture has many variants and the weave almost invites being touched. Available in various transparencies.

Sheers

Transparent fabrics, in uni colours or with a refined stripe. In this way you decide to what extent one can see in and how much light enters the room. In this way your room can be given a very attractive ambiance.

Stripes

Striped fabrics are timeless and are suitable for both classical and modern interiors. There are a variety of stripe widths to suit every taste. You can also choose from a range of magnificent patterns - a very inspiring collection.

Design

Exclusive fabrics of superior quality with magnificent patterns. The designs can be subtle but can also be distinctly visible from jacquard to embroidery. Any of them will add considerable decorative value to your interior.

Basics

Back to simplicity. A broad collection of fabrics in uni colours with varying transparency. The weaves range from a distinct to a more subdued texture. It is precisely this uncomplicated character that can form a good basis for a stylish interior. Let colour brighten your life!

You dealer will gladly provide information about various fabric characteristics to help you make a suitable choice.
